

ROMBOS

Jose I.Ballester design

ROMBOS la componen elementos de iluminación ubicados a techo. Con un diseño de planos triangulares, armoniosamente dispuestos, nos aporta un atractivo juego visual. Plafones en dos formatos para espacios de interior y, específicamente, para lugares de exterior (IP44), ROMBOS ilumina eficazmente con su luz led. La cual se puede seleccionar en intensidad, y temperatura de color (de 3000k. - 6500k.) con su mando a distancia. Aportando también un especial efecto de brillos (practicadas múltiples micro-perforaciones en su difusor). Difusor fabricado en inyección plástica en blanco satinado y de estructura metálica decorada en blanco epoxi. Diseñada por J. I. Ballester, ROMBOS viste e ilumina de manera diferente tu espacio elegido.

ROMBOS, embrace an elements of lighting to be settled on ceiling. With a design of triangle rally on the diffusor, settled harmoniously, and gives us an attractive combination visually. Ceiling in 2 shapes for both indoor and outdoor (IP44) spaces, ROMBOS illuminates sufficiently with its LED light of which dimmer intensity and temperatures of colour (from 3000K to 6500K) with a remote control coming together. It also contributes a special effect of brightness (thanks to multiply micro perforations). Diffusor is made of white satin plastic injection with metallic structure coated by white epoxy. Designed by Jose Ignacio Ballester, ROMBOS outfit and illuminate your special place in different way.
